Gillette Stadium Suite Renovations Project Overview

Project Highlights:

The 10-year old corporate suite boxes at Gillette Stadium were aging and in need of updating. Working with the individual suite owners to customize each suite, a combination of tile and carpet were agreed on for the projects. This ensured corporate marketing could be displayed using product. With a group effort between The Kraft Group, Populous Architects, and Team Ruggieri, each party provided suggestions in the selection for the final floor product. On average, the 89 suites would get an update with **Daltile** porcelain tile and backsplashes being used throughout. All **Daltile** were perfectly laid out to provide a pathway to all food and beverage areas and restrooms. Seating areas were installed using **Bentley Tip Sheared carpet tile**. **Daltile** Natural Stone was used on all the countertops. One of the challenges of this project was dealing with the existing conditions. Previous sub-floors that were made for carpeting, now needed to be leveled with **Ardex** and **Mapei** floor patchers and leveling compounds. Overall achievement was met on this project since renovations came under budget, and 100% were sold or renewed by corporate sponsors. Entering a suite, you know the owner has corporate pride shown in the uniqueness to each suite.

This is a 2016 Starnet Worldwide Commercial Flooring Design Award entry.
